

Bicycle Maintenance Bingo

Are all of your bikes ready to go? If not, a little bicycle maintenance bingo may provide some encouragement ... or humor.

Opened beer	Caught t-shirt in cassette or chainring	Pinched finger	Asked someone else to "hold this here"	Knocked bike over
Ruined new tube with tire iron	Finally found tiny piece of glass on the inside of the tire	Found missing hex wrench	Cleaned chain lube off pants or leg	Straightened something that was bent
Said "close enough"	Swore at derailleur	Rode bike! Free spot	Found bike tools	"Fixed" the same thing more than once
Found small dropped part with flashlight or magnet	Bent something that should be straight	Put something on backwards	Bent or broke a hex wrench	Used the wrong tool because it's what you had
Sacrificed toothbrush to clean parts	Decided job required 2 nd beer	Cleaned bike tools	Sprayed yourself with degreaser or cleaner	Turned the pedal wrench the wrong way ... again
